

Let's look at Division \div

Below are some division sums. Unfortunately, my computer is not working properly and some of the numbers have been left out. Can you fill in the gaps for me? Write the correct sum in the space next to the sum. (The first one has been done for you as an example to get you started!)

$$\square \div 4 = 20 \quad \longrightarrow \quad 80 \div 4 = 20$$

$\square \div 4 = 20$	$80 \div 4 = 20$
1. $\square \div 10 = 5$	\div
2. $10 \div \square = 1$	\div
3. $\square \div 5 = 9$	\div
4. $20 \div \square = 2$	\div
5. $49 \div 7 = \square$	\div
6. $90 \div \square = 9$	\div
7. $60 \div 10 = \square$	\div
8. $\square \div 5 = 10$	\div
9. $63 \div \square = 9$	\div
10. $35 \div 7 = \square$	\div
